

CRICKET.

A match was played this afternoon between the Non-commissioned Officers and men of the Intelligence Battalion and the Garrison of the Garrison, resulting in a win for the latter by twenty runs. The Cricket Ground, which had been kindly lent for the occasion, was only available till four o'clock, when second innings had not been completed, the match was therefore decided by the total scored in the first innings. During the second innings the Fusiliers were evidently pulling up on their opponents but they were little prospect of their obtaining the victory. Corporal Lucas, A.H.C., made the respectable score for the Garrison of 30 runs in the first innings, and again obtained double figures in the second; while on behalf of the Fusiliers Private Scott made the creditable score of 32, the only double figure, in the first innings, and 19, not out, in the second. The bowling of Gunner Cockerell for the Garrison was most effective in the first, four wickets falling to him in the first innings. The following are the scores:-

Saturday, November 12.

A DANGEROUS LUNATIC.
Syed Ahma, a Chinese unemployed, was placed in the dock charged with being a lunatic and dangerous.
Bahamat, defendant's wife, said her husband killed her yesterday evening, and threatened to kill her. He went into the kitchen and she could not get out. She did not know why he beat her. He had been very quiet since he came out of the Asylum until about three days ago, when he became very quarrelsome, and she is now afraid of his wife.

It appeared that about six weeks ago the witness had occasion to complain of her husband's strange conduct, and he was put under restraint in the Asylum in Hollywood Road, but was discharged from that institution about three weeks ago, apparently cured. He now seemed that it was his wife who was insane, and he had been very quiet since he came out of the Asylum until about three days ago, when he became very quarrelsome, and she is now afraid of his wife.

Reminded that the 14th instant, to enable the Colonial Surgeon to report on defendant's mental condition.

DRUNK AND DANGEROUS.
Patrick Weir, a private in the Royal Intelligence Battalion, was charged with being drunk and dangerous and assaulting a constable. He was committed to the Asylum. Mr. W. Sheelie, assistant in the Asylum, said that he had seen the defendant on the 11th inst. and that he was very quiet and well behaved. He was committed to the Asylum. Mr. W. Sheelie, assistant in the Asylum, said that he had seen the defendant on the 11th inst. and that he was very quiet and well behaved. He was committed to the Asylum.

Fined \$1, in default four days' imprisonment with hard labour.

DISORDERLY CONDUCT ON BOARD A STEAMER.

Choo Yik, a clerk, was charged at the instance of Sergeant Campbell with disorderly conduct on board the steamer *Poon* on the 11th inst. It appeared that yesterday evening defendant went on board as a passenger bound for Canton. He placed his hat in such a position that it was in the way of the Chief Officer, and when asked by him and the complainant to remove it, he worked it into a long silk gown, adorned his face with a pair of spectacles as large as saucers, and stretching himself to his full height, he roared in the Sergeant's face. He explained, through the interpreter in the most graceful language, that he did not care if witness was the Governor, and that he would not even open his eyes to look upon such a mighty man as he (defendant) was. He continued in this strain for some time, using defiant and abusive language, and attracting crowds round him, until it was found necessary to place him in restraint.

Defendant said he had been a schoolmaster, but was now employed as a clerk. He had been in the colony for six or seven years, and was on his way to Canton. He was sorry for what he had done, and promised to behave himself in Canton. Cautioned and discharged.

SHANGHAI (News).

We are informed that the new Viceroy of Nanjing is expected to come South at once. He will not visit Shanghai, but proceed direct to the provincial capital.

We are informed that the Korean official who arrived by last steamer from Japan is going to Tientsin and Peking, and that his investigation and chiefly directed towards the study of steamship-working and mining developments.

At Mr. Barnes Dallas's auction of new ponies on Monday, which included several of those who contributed good deal to the success of the recent meeting, the highest price obtained was \$120, the next \$115. Several were sold at \$100, and a number bought in from \$30 to \$75.

A fire broke out last night (8th) at No. 10, near the end of the Fuhkien Road. The fire was a prompt turn-out of the fire engines and the Brigades, and in little more than an hour the flames were got under, some five or six Chinese houses only being destroyed. The fire was confined to the block of houses in which it originated, and this was fortunate as the locality is a crowded one.

We are glad to hear that Mr. Inuy, whose name may be familiar to our readers as having been sent on a special mission to Peking, has been promoted from the Secretaryship of the Daio Kwan to be a Senator of the Sani In. This is a unusual promotion, and it is a sign of the high opinion entertained of his abilities by the young diplomatist by his Government.

One of the first complaints that the young Prince will receive on their arrival here is an invitation to the St. Andrew's Ball, which it is believed they will accept. In the event of their doing so, the meeting held in honour of the Patron Saint of Scotland will be more than usually successful and harmonious. The Scotch residents make their Ball a rule, a thoroughly cosmopolitan gathering, and it is expected that the people of all nations should be anxious to use the Prince's presence, are, therefore, hopeful that the Ball will be a greater success than it would be under normal conditions. The names of those who are on the Committee give a sufficient guarantee that the arrangements for the Ball will be carried out with that competence and perfection which only St. Andrew can evoke. It is not out of place in this connection that we should remind our readers, especially those who are born North of the Tweed, that the father of the Prince of Wales, who are about to reach a few days in our midst in the Duke of Rothesay, and such particularly entitled to their regard.

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of *Notes & Queries on China and Japan*, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE *China Review*, or *Notes and Queries on the Far East*, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$5.50 per annum, payable by non-residents in Hongkong half-yearly in advance. The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manera and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelago and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a running number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review department.

Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), or as "Queries," which "throw" light upon information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The *China Review* for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and entertaining Review. It is a sixty-page, bi-monthly, repository of what scholars are ascertaining about China. The Review on Chinese Poetry in this volume is alone worth the price of the Review. Address: *China Review, Hongkong*—Northern Christian Advocate (U.S.).

Frederick's Oriental Record contains the following notice of the *China Review*:—"This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot by one who respects a continuation of *Notes and Queries on China and Japan*, the extinction of which would be a great loss to all who have been much interested in the study of the Chinese literature, and who are generally represented in the first number of the Review by papers highly creditable to their respective authors. In a paper on the Chinese literature, the Editor, Rev. J. J. Eitel, tells the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connection with this important work. Some translations from Chinese novels and plays are marked by both accuracy and fluency of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, it is carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this new publication, besides its Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the *China Review* may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine."

THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage. It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing. The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, secure themselves a justified confidence in guaranteeing an ultimate circulation of between 5,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of them.

The field open to a paper of this description—conducted by native efforts, but progressive and anti-obstructive in tone—is almost limitless. It is on the one hand commands Chinese belief and interest while on the other it deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials, with Local, Shipping, and Commercial News and Advertisements.

Subscription orders for either of the above may be sent to
